SUMMARY

Senior Frontend Engineer with 8 years of experience building performant, accessible, and scalable web applications. Expert in React, TypeScript, and modern frontend architecture. Adept at collaborating across product, design, and backend teams to deliver polished user experiences. Passionate about UI quality, system design, and continuous learning.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, Next.js, Angular, Vue, Redux

Backend: Node.js, MySQL, Java, Kotlin, Express, PHP

Tools: Git, Figma, Jira, Jest, React Testing Library, Drupal, WordPress

Other: Unity, C#, GraphQL, C++, Python

EXPERIENCE

Domo – Software Engineer

Aug 2022 – Present · American Fork, UT

- Led frontend development of pricing model overhaul, contributing to \$200K+ in expected annual revenue
- Co-led architecture and development of a new in-house app store platform from inception to launch
- Participated in technology stack decisions and implemented animations and UI polish to improve UX
- Built scalable, customer-facing apps using React, TypeScript, Next.js, and Java/Kotlin APIs
- Collaborated in cross-functional, remote teams with high velocity and communication

FamilySearch – Frontend Web Developer

Apr 2020 – Aug 2022 · Lehi, UT

- Translated Figma designs into reusable, accessible React components
- Migrated legacy Flash applications to React with full feature parity
- Implemented automated user feedback collection via Google Sheets without 3rd-party libraries
- Wrote unit tests using Jest and React Testing Library to ensure high code quality

YBA Shirts – Full Stack Developer

Sep 2019 – Apr 2020 · Orem, UT

- Built internal portal app with React and Material UI to streamline order and process tracking
- Developed Node.js + MySQL backend and RESTful APIs to manage operational data
- Integrated QuickBooks Online API to support accounting workflows directly in-app

BYU Athletics – Full Stack Developer

Apr 2018 – Apr 2020 · Provo, UT

- Maintained and extended byucougars.com using Angular and custom Drupal modules
- Delivered new features for Nutrition, Booster Clubs, and Sports Camps in tight collaboration with stakeholders
- Resolved user-reported bugs within 24 hours, maintaining site reliability for global audiences

EDUCATION

B.S. Information Technology

Brigham Young University – Apr 2021

Minor in Business Management

- Built a React Native mobile app as an intern at Caravel Associates
- Created a Unity-based synthetic data generator to train wildlife-detection ML models

PROFESSIONAL STRENGTHS

- Clear communicator in remote and hybrid teams
- High attention to UI detail and polish
- Self-driven, constantly improving frontend and full-stack knowledge
- Comfortable in both greenfield and legacy codebases
